

# DEAR TOURISTS FROM OVERSEAS

## ID CHECK REQUIRED

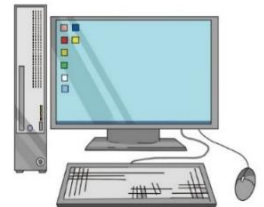

BY THE TOKYO METROPOLITAN ORDINANCE.

**Please present your passport  
or seaman's book to  
a counter attendant.**

If you wish to present some other type of ID such as a driver's license of your own country, it must meet the following conditions:

- The ID was issued by your home government office.
- The ID shows your name, address, and date of birth.

- ID information checked by the business operator shall be the customer's full name, address, and date of birth. Note, however, that the nationality and travel document number shall be checked as well in case the customer is a short-term visitor from overseas whose home address cannot be verified in writing.
- The travel document, i.e., passport or seaman's book, may be replaced by such a valid ID as is issued by a government authority and contains the holder's name, home address, and date of birth. The validity is deemed to be six months if the expiry is not specified.
- The business operator shall keep a record of the ID type, its number, holder's information and other basic data in order to meet the statutory requirements.
